

PRESS RELEASE

CodeTwo Public Folders works with MS Outlook 2010 x64

Along with the latest update of CodeTwo Public Folders, the 64-bit version of the program was issued by CodeTwo last week. Starting from version 4.6.0, all Outlook users (including Outlook 2010 64-bit) can benefit from the wide range of data sharing abilities this program delivers. Seems like small business owners do not have to spend money on Exchange Server anymore.

Jelenia Gora, Poland, August 6, 2010—

No matter if you are planning to run a big international company or a small local business, there's one thing you can be sure of. If you plan to use more than one PC equipped with Microsoft Outlook in your everyday work, someday you will have to figure out how to share data between them. The situation becomes even more complicated if some of your machines are used outside office, among your customers and business partners. Is there a simple and inexpensive way to keep all Outlook data up to date on every computer in that case? Of course there is – it's CodeTwo Public Folders.

CodeTwo Public Folders is a powerful and handy Outlook add-in that lets you share literally every type of Outlook items in a safe network of multiple users. The program is designed to mimic Exchange Server in data sharing capabilities. Users create so called Public Folders in Outlook folder lists, which then become visible to other network users. Unlike Exchange Server, CodeTwo Public Folders does not require server dedicated software to work smoothly in your company. It is amazingly easy to install and configure, and it seamlessly integrates with Outlook. The latest version of the program has been tested compatible with Outlook 2010 64-bit, therefore a wider range of users can now benefit from its versatile capabilities.

- We reacted to our customers' needs, by adapting our applications to work with both 32 and 64 bit versions of Microsoft Outlook 2010 – says Michal Bednarz, founder and Managing Director of CodeTwo – We are happy that, apart from our most popular free tools, now the 64-bit version of CodeTwo's flagship Outlook add-in can also be offered to our clients.

CodeTwo is a software company located Poland, specializing in developing solutions for Microsoft Exchange Server and Microsoft Outlook platforms. Apart from CodeTwo Exchange Rules and CodeTwo Exchange Sync, CodeTwo Public Folders is one of its main utilities winning awards word-wide. It has been given the highest ratings from World's most recognizable IT portals, including Tucows (5 cows) and CNET (5 stars). The program has been also chosen the first runner-up in a poll organized for the readers of the prestigious site MExchange.org in "Best Outlook Addon" category. The application was praised for its advanced sharing abilities, simplicity and highest data security level. If you're looking for a reliable Exchange alternative, CodeTwo Public Folders should definitely be one of your top candidates.
