

PRESS RELEASE

CodeTwo supports a Polish software forum.

CodeTwo, a Polish software company, sponsored the top award (SonyPlaystation3) on the occasion of the 6th anniversary of Dobreprogramy.pl's forum.

Wroclaw, Poland, May 22, 2009 --

Dobreprogramy.pl, one of the most famous software catalogs in Poland, hosts an online discussion site dedicated mainly to software and IT. Its first post was published in May 2003 which means 6 years ago. To celebrate this anniversary the editorial staff decided to reward the most active forum contributors and distribute some attractive prizes among them.

The top award, Play Station3 console, was sponsored by CodeTwo, which is a Polish IT company specializing in creating advanced software solutions for Microsoft Exchange Server platforms and Microsoft Outlook. Indubitably, PlayStation 3 is a real treat for amateur video gamers and High Definition movies buffs – it is the first console with a Blue-Ray drive and modern highly efficient Cell processor. The winner was selected in a random draw – the award goes to a user with a nick “iwa nike” who authored close to 1,200 posts.

- I am happy about the PlayStation. Playing on it is far more exciting than on an ordinary PC thanks to excellent console performances – says Karol Iwicki (aka “iwa nike”). – This award is a nice surprise for me as an internet forum member. I've always been doing my best to pass my forum experience to other , less experienced forum users. I am very into computer repairs and therefore my favorite section in Dobreprogramy.pl forum is “Hardware”.

The decision concerning the sponsorship of the top award was certainly not accidental. *–Expert internet discussion groups are not only the source of information about the internet or software but these are also the platforms for exchanging thoughts and good ideas – says Michal Bednarz, the founder of CodeTwo. – For many years I have been an active member of several forums and discussion groups as an Exchange Server and Microsoft Outlook expert. I have been providing practical advice and helped solve problems with Microsoft applications.*

The Microsoft Office Outlook forum (www.Outlook.pl/forum) was created on CodeTwo's website on Michal Bednarz's initiative. It is currently the largest discussion site dedicated to this program. In the system, there are almost 2,500 registered users who have started 3,000 threads and posted 13,000 posts. *– “Articles & advices”, an essential section of our discussion site, is a place where one can find expert publications and useful guides about Microsoft Outlook, Exchange Server, Outlook Express and many more – says Michal Bednarz. – Forum moderators and users are the authors of the texts.*

About the company:

CodeTwo, a software company located in Poland, develops highly-specialized software for Microsoft Exchange Server and Microsoft Outlook. CodeTwo offers solutions to facilitate groupwork in companies of all sizes as well as resource management procedures, mails and tasks.

The solutions brought by CodeTwo are currently used by over 2600 companies (660 in Poland and as many as 2000 worldwide, mainly the USA). The flagship applications released by CodeTwo include [CodeTwo Public Folders](#) – an application used to share Outlook data (calendars, contacts, tasks, and mail

folders) by multiple users in the workplace or home, as well as [CodeTwo Exchange Rules](#) – a solution used to add company disclaimers or personalized signatures to email messages automatically without user's instruction. The product list is completed by customized software solutions (e.g. system used to manage employees' vacation/paid-leave forms, an application for creating data back-ups for Exchange, a solution for managing the standard paper company correspondence, and finally free add-ons to Microsoft Outlook.
