

## CodeTwo Public Folders Voted MExchange.org Readers' Choice Award Winner

One of the world's most popular Microsoft Exchange Server resource sites, MExchange.org, announced today that CodeTwo Public Folders was chosen the winner in the Outlook Addon category of the MExchange.org Readers' Choice Awards.

March 30, 2011 –

"Our Reader's Choice Awards give visitors to our site the opportunity to vote for the products they view as the very best in their respective category," said Sean Buttigieg, MExchange.org manager. "MExchange.org users are specialists in their field who encounter various solutions for Exchange Server at the workplace. Their vote serves as a solid peer-to-peer recommendation of the winning product."

The polls on MExchange.org are organized regularly in order to reveal the actual preferences of Exchange Server administrators in a given group of third party solutions for Microsoft Exchange Server. Every month thousands of Exchange users vote for their favorite product in a particular category and in February 2011 they selected CodeTwo Public Folders for their favorite Outlook addon.

### About CodeTwo Public Folders

CodeTwo Public Folders is an advanced Outlook extension that allows users to share Outlook folders in local network and between multiple PCs. Owing to the program, users are able to create so called public folders in their Outlook folder tree, as well as share their private folders with others. What is more, it is possible to control access rights to shared data in order to apply advanced collaboration scenarios within the given group of co-workers.

The program is extremely easy-to-use and requires no server-dedicated software. The entire implementation of the CodeTwo Public Folders takes only a few minutes. The application already received top ratings from the world's most recognizable download portals, such as CNET and Tucows and is used by thousands of companies worldwide.
