

PRESS RELEASE

CodeTwo Exchange Sync Voted MExchange.org Readers' Choice Award Winner - First Runner-up

One of the world's most famous Microsoft Exchange Server resource portals, MExchange.org, announced today that CodeTwo Exchange Sync was selected the first runner-up in the Exchange Server Mobility and Wireless category of the MExchange.org Readers' Choice Awards.

February 23, 2011

"Our Reader's Choice Awards give visitors to our site the opportunity to vote for the products they view as the very best in their respective category," said Sean Buttigieg, MExchange.org manager. "MExchange.org users are specialists in their field who encounter various solutions for Exchange Server at the workplace. Their vote serves as a solid peer-to-peer recommendation of the winning product."

Every month MExchange.org organizes a poll among Exchange Server admins to discover their best-preferred third party solution for Microsoft Exchange Server in a particular category. During the whole month MExchange.org users submit their votes via an on-line poll placed on the portal's main website. In February 2011 CodeTwo Exchange Sync was selected the first runner-up in the Exchange Server Mobility and Wireless category of the portal's Readers' Choice Awards.

About CodeTwo Exchange Sync

CodeTwo Exchange Sync is an application that enables advanced synchronization options of Exchange Server folders. The program extends Exchange Server's native capabilities in the field of data syncing. It allows to synchronize all types of Exchange folders, including: contacts, tasks, mail, calendars, etc. in many scenarios: one-to-one, one-to-many or many-to-many. The synchronized information can be filtered and modified on the fly. It gives the server administrator almost endless possibilities in applying new teamwork scenarios in the company. It also solves such common problems as synchronization of Exchange Public Folders to mobile devices.
