

PRESS RELEASE

New Email Management System for Microsoft Exchange Server Is Out Now

CodeTwo Exchange Rules Pro, a long-awaited email management console for Microsoft Exchange Server has been released by CodeTwo this week. With this new application for Exchange Server, email flow management and email content control are easier than ever before.

Jelenia Gora, Poland, November 25, 2010—

If you are an Exchange Server admin and have to take care of hundreds of different mailboxes at one time, you will be probably relieved by CodeTwo's latest release. Thanks to their new application, CodeTwo Exchange Rules Pro, applying email rules for Exchange is no longer a nightmare.

CodeTwo Exchange Rules Pro will definitely be a huge support for all Exchange Server administrators who have to apply complicated email rules in order to take control over the flood of messages going every day through their Exchange Servers. Thanks to CodeTwo Exchange Rules Pro, email flow management and email content control on Microsoft Exchange Server can be done automatically by setting up mail rules based on Active Directory criteria. Above all, the program covers such important tasks as email filtering, email rerouting, auto-responding, email categorization, attachment control, email blocking, signatures, disclaimers and many more. All this can be achieved using a non-complicated and easy-to-use User Interface of CodeTwo Exchange Rules Pro. The process of creating a rule is arranged in a very simple and logical way and the final results can be easily tested with a build-in Rule Tester that mimics a real mail client with Exchange mailboxes. What is more, the process of disabling and enabling a rule can now be done automatically as well - by using a new time stamp option. All these abilities make the multilevel email flow management possible and extremely comfortable.

CodeTwo is already a well-known company among Exchange Server administrators. Basically, because of one of its flagship products, CodeTwo Exchange Rules which is a popular email signature and disclaimer adding application for Microsoft Exchange. Their new program, CodeTwo Exchange Rules Pro, considerably extends the possibilities of its signature adding relative and introduces completely new email management features. As far as signatures and disclaimers are concerned, CodeTwo Exchange Rules Pro is equipped with richer editing options, mainly owing to its brand new Signature Template Editor. Users are now able to insert disclaimers at the top, bottom or both sides of the message body. With CodeTwo Exchange Rules Pro, it also possible to convert signature templates to RTF format, insert dynamic content disclaimers to emails and remove themes and stationary from messages. Those new features all together help administrators keep a more coherent and unified look of all corporate emails.

CodeTwo Exchange Rules Pro is an advanced tool for administrating Exchange Server mail. It surely is a must-have for every Exchange Server administrator who would like to gain full control over the entire email flow let under his or her watch. The trial version is fully functional and can be tested at no cost for 30 days.
